

Greetings from Gill at The Healing House

Connection

Greetings from Gill at The Healing House.

When I first started my journey of connection with my spiritual essence, I was loved, guided and supported by some very wise Older Women. They suggested many wonderful healing opportunities and ideas that would guide me to a deep and powerful connection with my Higher Self, my Essence, Me.

One of these suggestions was to take a few minutes at the start of each day to connect with Me. They told me that I would benefit from taking time to focus on my personal healing and to give conscious gratitude for my life, my support and the gifts of abundance that I enjoy around me.

My life was in a bit of a mess – well actually a lot of a mess and I was eager and ready for change. So each day with enthusiasm and sincerity I would do as they said – and yes, indeed, my life began to change and I felt a strong connection to my Spiritual Self – just as they said I would. I felt better within myself and certainly more connected not only to my Spiritual Self, but also to my life!

Well, then, because things were rolling along well, I became, busy and I became complacent and I began to take the gifts in my life a bit for granted and my practice of self-reflection and conscious gratitude fell away.

My life seemed to roll along ok – but it was only reaching a level of ok!

One fateful day I was feeling unwell and 'out of sorts' so I took some time for myself to rest. I offered myself a Reiki. In my mind's eye I saw those beautiful Older Women and I remembered the Unconditional Love that they shared with me and I remembered their guidance to connect with 'Me' each day.

I had enough motivation to create the discipline to take a little time each day to once again for connection. In just a few days I moved from being just ok to once again, feeling connected to my sense of wholeness.

My morning time of connection is now a precious part of each day. I allow time every morning for me. Reiki, Meditation, expressions of Gratitude, Declarations ... and then the rest of my day has begins.

Having spent conscious time with 'Me' I am then ready to spend conscious time with others.

Everyone has their own personal circumstances and it's not always easy to put time aside – but, if you can find a way to bring some personal time into your day – I can guarantee you will begin to feel the benefits in your life. And what we have found is that as a result, those around you will benefit as well.

You can get started with as little as ten minutes – see if you can give it a go – and see what happens. All you have to loose is ten minutes! – And there is so much to gain!

I feel so blessed to have had the support and guidance from those Wonderful Women. I share this small part of their amazing wisdom with you with the hope it may enhance your life as it has mine.

As they supported me, I look forward to the opportunity to support you on your journey and wish you love, light and many blessings along the way.

With love,

Gill

learn Reiki?

Reiki is an opportunity for deep personal transformation and healing. During the phases of Reiki Workshops you will be aligned with the Reiki healing energy and learn the principles and skills to offer healing to ourselves and others ... including our pets.

What is healing?

Healing is the opportunity for transformation ... with love as the key. Because we have a strong natural instinct to survive, we inherently resist conscious change within ourselves ... unless circumstances "corner us" and our survival requires change and the subsequent transformation. The energy of Reiki supports us to be less resistant to change.... as we receive its gentle flow our energy systems come into balance. With this balance we are in a position to feel safe and harmonious with life and embrace healthy change more readily.

Can anyone learn Reiki?

Yes!! You require no special skills or talents to bring Reiki into your life. It is available to all to bring into their lives. It is recommended that the minimum age to bring Reiki into your life is 14years. Before the age of 14 there is so much to learn, develop and experience.

It does however require a skilled Reiki Master to guide, support and align workshop participants with Reiki.

*Reflect, Review and Renew ... Wholistic Manifestation Workshop
at
The Healing House.*

The dawning of 2020 brings our Annual Reflect, Review & Renew Workshop (RRR) on Sunday the 5th of January.

This workshop is from 10:30am - about 5:00pm.

There are no pre-requisites for this workshop

Each of us is an individual and each journey through life is unique. This workshop celebrates this uniqueness and looks at the opportunities for the growth of personal awareness that the past year has brought.

We have found that when we sit in a clear and open space can we *truly* look at our lives with an open heart and open mind. It is then, we have found that clarity and compassion, objectivity and love flow.

We can then step into the next phase of our life with clearer vision, grace, and empowerment.

This is a very empowering workshop and it is a lot of FUN!

This workshop is an opportunity for participants to *Reflect* on the year that has been, *Review* behaviours beliefs and attitudes with conscious awareness. This clarity brings forward the opportunity to *Renew* our attitudes and beliefs about ourselves so we can step into 2020 with renewed compassion, awareness and goals.

Awareness is a key to wisdom.

This workshop space creates the opportunity for clarity, compassion and objectivity to flow forward with greater ease, clearer vision, grace and empowerment.

Please contact me to reserve your place at Reflect, Review & Renew.

The Fee for this workshop is \$110- with a Concession Fee of \$95- available for Health Care Card Holders and those undertaking Reiki Master Training with Gill at The Healing House.

I hope you can join me.

Bookings are Essential.

Wholistic Life Skills

Wholistic Life-Skills is a personal mentoring plan facilitated by Gill, specifically for you!

It is a healing plan that you can work through primarily or completely from the comfort of your own home.

There is so much to learn about life and the opportunities that your unique potential has to explore and experience.

Fear of change often stops us from looking outside the familiar pages of our life's story. And, even if we move past the fear and explore new possibilities for ourselves, we often fall back into our old habits.

With **Wholistic Life-Skills** you will receive personal mentoring and guidance through the maze of your emotional, mental, physical, and spiritual self.

Wholistic Life-Skills will enliven a greater sense of personal purpose, self-understanding, clarity, and motivation within you.

You will have a deeper understanding of your life, your unique journey, and your purpose.

Life can be a journey of self discovery ... It is a journey of self determination - the path that you walk is your choice.

You make choices every day – some of them are made consciously and most of them are made unconsciously.

With **Wholistic Life-Skills** you will become more aware and more actively involved with your life, your journey, your path, and some of the patterns that drive your unconscious choices.

Wholistic Life-Skills is a pathway towards living with more conscious choice, conscious opportunity and challenge, and conscious clarity and understanding.

With guidance and loving support from Gill, you can make significant changes for yourself and live a life with greater personal understanding, compassion and healing.

If you are ready to take the next step in your healing journey, give Gill a call and find out more about **Wholistic Life-Skills**.

Wesak 2020

How will Wesak unfold at The Healing House in 2020?

Wesak celebrations are held around the world any time during a particular week that aligns with The Buddha's Birthday

During these two months we connect with a world-wide focus on Peace and Healing

We have found that gathering for the three phases of Wesak enhances our appreciation of ourselves as individuals and creates great connections and healing

At Phase Two of Wesak, we embrace a guided meditation and energetically connect with the energetic opportunity that this auspicious time offers us.

With this opportunity we also offer focused healing to Mother Earth and all whose life-force she supports.

We have lots of laughter, inner vision, personal healing and self-reflection.

The Three gatherings will be ...

Sunday the 5th of April

(Aligning with the Full Moon on the 8th)

Saturday the 9th of May

(The Auspicious Full Moon is on the 7th of May)

Saturday the 6th of June

(The Full Moon is on the 6th)

Wesak can have a huge impact on your life and your potential for healing and transformation.

The Fee for each Wesak gathering is \$95-
Concession Fee is \$75-

Join us for the next wonderful Wesak Experience.
